

How to build a bee hotel

You will need:

1x Plank

1x Log

1x Paint

1x Drill

1x Handsaw

4x Screws

1x Screwdriver

1x Pencil

Various drill bits

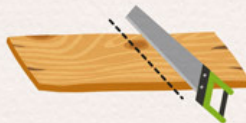

Step 1:

Drill various sized holes between 2mm – 10mm into the log of wood.

Drill as many as you'd like but be sure to leave some space between each hole.

Step 2:

Cut a plank of wood to a size that will form a roof over the log with a small overhang.

Step 3:

Fasten the plank of wood to the log with four screws.

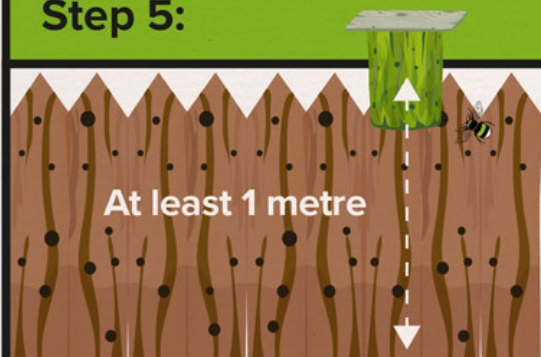

Making sure the screws are flush with the top of the plank.

Step 4:

Paint the your bee hotel using water-based paint.

Step 5:

Find a suitable, safe place at least 1 metre from the ground for your bee hotel and wait for your new friends to arrive.
